

CHYNAE DIGITAL SOLUTIONS

Empowering businesses through intelligent software

ASSET MANAGEMENT SYSTEM SYSTEM PROPOSAL

PREPARED FOR

Gona Capital Partners

Date: 04 May 2026 | Ref: CDS-GCP-001/2026

1. INTRODUCTION

Gona Capital Partners (hereinafter referred to as "**Gona**") is an asset management company whose core mandate is the management and strategic investment of proprietary and client funds. To enhance operational efficiency, transparency, and reporting accuracy, Gona is seeking a purpose-built asset management system.

Chynae Digital Solutions is pleased to present this proposal for the development and implementation of a bespoke Asset Management System (AMS). This system will be delivered by a dedicated team of software engineers, business analysts, and project managers, ensuring the highest standards of quality and on-time delivery.

2. PURPOSE OF THIS DOCUMENT

This document sets out the full scope of the proposed solution, its modular breakdown, platform requirements, delivery timelines, investment costs, and payment terms. It is intended to serve as the formal basis for contractual engagement between Chynae Digital Solutions and Gona Capital Partners.

3. SOLUTION OVERVIEW & BENEFITS

The proposed Asset Management System is a web-based platform designed to automate and centralise Gona's investment operations, replacing manual, spreadsheet-driven workflows with a secure, auditable, and scalable digital solution. The system will be developed by the Chynae Digital Solutions team and tailored specifically to Gona's operational context.

- Real-time visibility of all investments managed by asset managers
- Automation of fund performance calculations and portfolio valuations
- Elimination of human error through double-entry and maker-checker controls
- Consolidated reporting across all investment classes
- Secure, role-based access for all stakeholders
- Scalable architecture ready for growth in AUM and team size

4. PLATFORM REQUIREMENTS

The following minimum specifications are required for optimal system performance:

4.1 Software Requirements

Component	Minimum Requirement
Server OS	Ubuntu 22.04 LTS / Windows Server 2019+
Database	PostgreSQL 15+ or MS SQL Server 2019+
Runtime	Node.js 20 LTS / Python 3.11+
Client Browser	Chrome 110+, Edge 110+, Firefox 110+

4.2 Hardware Requirements

Tier	Component	Specification
Server	Processor	Dual-core 2 GHz+
	RAM	16 GB+
	Storage	SSD 100 GB+ with RAID / cloud equivalent
	Network	1 Gbps NIC / stable broadband
Workstation	Processor	1 GHz+
	RAM	4 GB+
	Display	1280×720 minimum resolution

5. SOLUTION MODULES

The system is structured into four (4) core modules, each independently deliverable and collectively forming the complete Asset Management System:

Module 1 — Client & KYC Management

Capture and manage full client onboarding details including Know-Your-Customer (KYC) documentation, identification records, contact information, and counterparty details. Includes digital document uploads and client status tracking.

- Client onboarding and profile management
- KYC document capture and verification workflow
- Counterparty / broker / custodian records
- Client portal access (view-only statements)

Module 2 — Portfolio & Investment Management

Core investment processing engine supporting multiple asset classes with full double-entry bookkeeping and a maker-checker approval mechanism on all transactions.

- Stock market / equity trading
- Money market instruments
- Bond investments
- Property investments
- Unit trust investments
- Double-entry transaction posting
- Maker-checker approval workflow
- Fund performance calculations
- On-demand portfolio valuations

Module 3 — Reporting & Analytics

Comprehensive reporting suite providing management with real-time insights and exportable data.

- Fund performance reports
- Portfolio valuation statements
- Transaction audit trails
- Income & expense summaries
- Export to Excel / PDF on demand
- Scheduled automated report delivery via email

Module 4 — User Management & System Administration

Role-based access control (RBAC) ensuring each user sees only what is relevant to their role, with full audit logging of all system actions.

- User roles: Super Admin, Fund Manager, Analyst, Read-Only
- Activity audit log
- System configuration and parameter setup
- Password policies and two-factor authentication (2FA)
- Backup and restore management

6. EXPECTED DELIVERABLES

- Business & systems analysis report and pre-implementation consultancy
- Fully functional Asset Management System (all four modules)
- Installation, configuration, and deployment to agreed hosting environment
- Comprehensive user training (all user roles)
- Application user manuals and technical documentation
- Three (3) month post-commissioning warranty covering bug fixes at no additional charge
- Source code repository access (on agreed terms)

7. DELIVERY TIMELINES

Phase	Action	Duration
1	Pre-implementation consultancy & requirements sign-off	5 business days
2	Module 1 — Client & KYC Management (build & test)	2 weeks
3	Module 2 — Portfolio & Investment Management (build & test)	3 weeks
4	Module 3 — Reporting & Analytics (build & test)	2 weeks
5	Module 4 — User Management & Administration (build & test)	1 week
6	Integration testing & UAT	2 weeks
7	Deployment, user training & go-live	1 week
8	Warranty run	3 months

Note: The above timeline assumes prompt client feedback at each phase gate. Should implementation extend beyond the agreed schedule due to scope changes initiated by Gona, a consultancy fee of USD 60 per day per consultant will apply.

8. INVESTMENT SUMMARY

All amounts are quoted in United States Dollars (USD) and are exclusive of VAT. The system will be built and delivered by the Chynae Digital Solutions development team.

8.1 One-Time Development Costs

Module / Item	Description	Cost (USD)
Module 1	Client & KYC Management	1,200.00
Module 2	Portfolio & Investment Management	2,400.00
Module 3	Reporting & Analytics	1,400.00
Module 4	User Management & System Administration	800.00
	Pre-implementation consultancy, deployment & training	600.00
TOTAL DEVELOPMENT INVESTMENT		USD 6,400.00

8.2 Recurring Monthly Costs

Item	Description	Monthly (USD)
Support & Maintenance	Bug fixes, patches, updates, helpdesk (business hours)	400.00
Cloud Server / Hosting	VPS / cloud hosting (2 vCPU, 8GB RAM, 100GB SSD) — optional if client self-hosts	80.00
Business Email Hosting	Up to 10 professional mailboxes (e.g. name@gonacapital.co.zw) — optional	25.00
TOTAL (if all recurring services taken)		USD 505.00 / month

Server hosting and email are optional add-ons. Gona may choose to host on their own infrastructure, in which case these recurring costs will not apply. Pricing shown is indicative; final costs will be confirmed at onboarding.

9. PAYMENT TERMS

The development investment of **USD 6,400.00** shall be settled in three milestone-linked instalments as follows:

Milestone	Trigger	%	Amount (USD)
1st Payment — Deposit	Upon signing of this agreement / commencement of work	50%	3,200.00
2nd Payment — Mid-delivery	Upon completion and sign-off of Modules 1 & 2	25%	1,600.00
3rd Payment — Final	Upon go-live and client acceptance sign-off	25%	1,600.00
TOTAL		100%	USD 6,400.00

Additional Payment Notes:

- Recurring support and hosting fees are invoiced monthly in advance from the go-live date.
- All payments are to be made via EFT/RTGS to Chynae Digital Solutions' nominated bank account.
- Invoices are payable within 7 business days of issue.
- Any customisation requests outside the agreed scope will be quoted separately before commencement.
- Chynae Digital Solutions is open to discussing alternative arrangements based on Gona's cash flow requirements.

10. ONGOING SUPPORT

As this is a bespoke system developed exclusively for Gona Capital Partners, full ownership of the system — including source code — is transferred to Gona upon final payment. **There are no third-party licence fees.** The optional monthly support retainer of **USD 400/month** covers:

- All software patches, bug fixes, and minor enhancements
- Business-hours helpdesk support (8 hours/day, Monday–Friday)
- Annual system health check and performance review

Support fees do not cover modification of the system to accommodate new requirements initiated by the client — these will be scoped and quoted separately. Travel and accommodation for work conducted outside Harare will be charged at prevailing AA rates.

11. OUR DELIVERY TEAM

This engagement will be built and delivered by a team of three (3) full-stack developers from Chynae Digital Solutions. Each developer takes primary ownership of designated modules while collaborating on integration, testing, and deployment:

Developer	Module Ownership	Shared Responsibilities
Developer 1	Module 1 — Client & KYC Management Module 4 — User Management & Administration	Integration testing, UAT support, deployment
Developer 2	Module 2 — Portfolio & Investment Management (lead module — core transaction engine)	System architecture, database schema design, code review
Developer 3	Module 3 — Reporting & Analytics	Documentation, user training support, QA testing

All three developers are full-stack and will provide cross-module support as needed. The project lead will serve as the primary point of contact for Gona throughout the engagement.

12. PROPOSAL ACCEPTANCE

This proposal is valid for **30 days** from the date of issue. To proceed, please sign below and return a copy to Chynae Digital Solutions, together with the initial 50% deposit.
